Attention: Mr. Tim Benkert

Subject: Cal-Dyn "9842" Spring Isolators

Dear Mr. Benkert:

Carrier Hawaii has been recommending, specifying, and selling the Cal-Dyn model "9842" series salt air protected spring isolators for the last several years. This series of spring isolators has been successfully installed in thousands of installations here in the very corrosive environment of Hawaii. It is proven to be superior to any type spring isolator we have tried in the past, and we shall continue to recommend and specify the product in the future.

Very Truly Yours,

CARRIER HAWAII

Robert L Pascua
